Decline in Export

2029. SHRI V. N. GADGIL: Will the Minister of COMMERCE be pelased to state:

(a) whether it is a fact that the rate of export has declined enormously Since March, 1998;

(b) whether the decline in the rate of export will create balance of payment problems; and

(c) if so, what action Government have taken in the matter?

THE MINISTER OF COMMERCE (SHRI RAMAKRISHNA HEGDE): (a) As per the provisional Directorate General of Commercial Intelligence and Statistics (DGCI and S) data, the growth rate of exports for the period April-January 1998-99 in rupee terms was 11.98 percent. In dollar terms the exports showed a decline of 1.98 percent.

(b) and (c) Decline in the rate of exports affects the foreign exchange receipts thereby exerting pressure on the balance of payment position. A number of steps have been taken to promote exports which include lowering of interest rates on export credit, reduction in transaction cost through decentralisation and simplification of procedures and various other measures as enumerated in the Exim Policy. Steps have also been taken to promote exports through multilateral and bilateral initiatives, identification of thrust sectors and focus regions. The Government is also initiating action through seveal measures to facilitate investment in sectors with strong export potential, encourage diversification of India's export basket, address infrastructure shortcomings, improve export facilitation measures and thus enhance the overall competitiveness of Indian exports. The Government is according high priority to exports and all necessary steps are being taken to put exports on high growth trajectory.
